AGENDA

I. WELCOME - Phil Schroeder

II. TECHNICAL DISCUSSION – Phil Schroeder

A. Discuss the “strawman” sent to the Advisory Group via e-mail 8/25/06. (The attachment was entitled, “DRAFT MDNR Antideg Impl Proc 082306.doc”.)

We will focus on requests for specific changes to existing language in the DRAFT rather than speaking about generalities. We have initiated “track changes” editing option from here forward. Goal is to ready the draft for public review.

B. Discuss Next Steps: Presentations to Commission and Public Review Period.
